EXPERIENCE

School Senior Year Project

January 2019 - April 2019

Vitebsk State University | Belarus, Vitebsk Region

- Designed and created a fully functional web app which performs CRUD (Create, Read, Update, Delete) operations using ASP.NET Core, HTML, CSS, EF Core, SQL
- Designed and created a web calculator app which performs simple arithmetic operations (+, -, /, *) using Microsoft's new Blazor framework, HTML, CSS and Bootstrap.

Web Developer Intern

March 2019 - June 2019

Innowise Group | Belarus, Vitebsk Region

- Worked with a team of senior engineers and learnt the basics of ASP.NET and ASP.NET Core, created a minimal website to test my knowledge of the stack.
- Moved on to building interactive and responsive user interfaces using flexbox, grid, vanilla JS.

Front-end Engineer

January 2020 - Date

Konga Online Shopping (Konga Pay) | Lagos, Nigera

- Currently working with a team of experienced developers on a redesign of the konga pay web platform for better user experience and interaction.
- The project is built with the latest cutting-edge technology – React/redux, Nextjs, SASS/bootstrap 5, git, docker.
